

## EQUIPMENT AND CAPABILITIES

*Sheet Lamination with Barberan Compact PUR Lines*

*Dimensional Cutting/Panel Processing with Sawtech, Giben Panel Saws, Maureen Johnson Rip Saws, Tiger-Stop Chop Saws, Table and Miter Saws*

*Kentwood and Leadermac 6 Head Moulders*

*Profile Wrapping with Barberan and Dusphol Equipment*

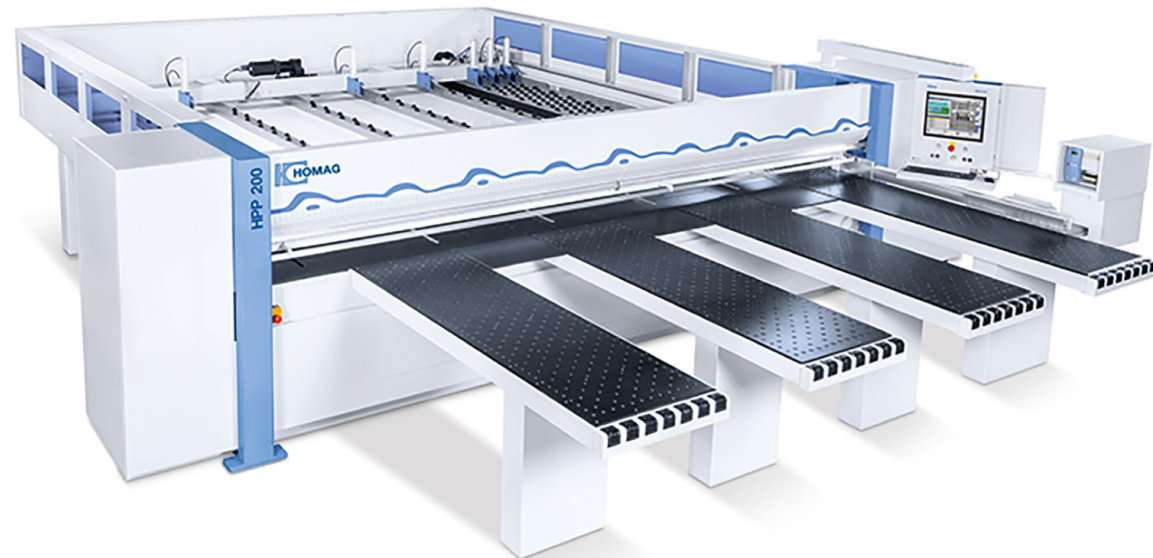

*CNC Routing with Northwoods and Homag CNC Routers*

*Thermoforming with Wenhomer 3D Press*

*Cabinetry Door and Drawer Fronts with Koch Endmaster P & K, ADP, Double End Tenoner*

*Prefinishing with Dimeco Automated Lines*

*Makor Robotic for flat panel finish processing*

**North American  
Specialty Laminations™**

## FABRICATION SERVICES

*NASL offers a robust portfolio of fabricated offerings to the building products industry.*

*These capabilities, in-concert with our lamination and finishing expertise, positions NASL as the single source supplier for efficiently integrating color to keep pace with ever evolving trends.*

### NASL Value Proposition

- Single source solution across a wide array of building products delivering fabricated components, and or finishing with color, via lamination, paint or stain
  - Interiors – Cabinets, Mouldings, Interior Doors and Windows
  - Exteriors – Windows, Doors, Siding, Decking and Railing
- Ability to utilize a broad array of substrates – wood, vinyl, MDF, aluminum, (engineered wood, vinyl, PVC, aluminum, fiberglass, composites, and natural wood)
- State-of-the-art production technology and equipment
- North American production footprint for timely service
  - Strategic supply source to minimize customer capex/freight/labor

## FURNITURE

- *Furniture Components*
- *Headboards, Footboards*
- *Legs, Rails, Stiles*
- *Mouldings*
- *Dresser Drawer and Door Fronts*

### North American Specialty Laminations – “We’ve got you covered”™

Our products and services empower our customers to deliver high-performance integrated architectural solutions to their customers, in virtually any color, texture, or pattern. Our proprietary technology and team member expertise enables us to handle the fabrication, finishing and lamination of complex shapes adhered to a specified array of substrates. Our collaborative R & D process means we anticipate and respond to design trends fast, and our vast footprint provides the industry’s most efficient delivery.

## CABINETRY

- *Cabinetry Components*
- *Drawer and Door Fronts*
- *Drawer Parts*
- *5 Piece MDF*
- *1 Piece MDF*

## PRODUCTS

- *MDF Mouldings*
- *Volume Engineered Wood Components and Products*
- *Scribes, Batten, Base, Shoe, Crown, Toe Kick*
- *Corner Mouldings*
- *Face Frames and Door Lineals*
- *Dimensional Componentry, Pilasters*
- *Mouldings, Shiplap, Nickel Gap*
- *Cabinet Drawer and Door Fronts, Sheet Lamination*
- *Window and Door Sills, Seat Boards, Headboards*

## FINISHES

- *Thermofoil*
- *Laminate, Paper, Vinyl, Veneer*
- *Stains and Dyes*
- *Glazes, Paints and Primers*
- *Water and Solvent Based Coatings*
- *Standard Finishes*
- *Architectural Finishes*
- *Specialty Coatings*
